Summary

I'm a **Senior Product Designer** with **7 years** of experience who loves crafting calm, clear experiences that users love and teams trust. I design with a systems mindset: simplifying complex workflows, elevating visual clarity, and shaping products that scale with intention. Currently at SuperOps, designing an AI-native ticketing platform. Previously at Zoho.

Experience

User Experience at SuperOps
Chennai, India | March 2023 – Present

- **Product Ownership:** Runbooks 🔗 Turned tribal-knowledge SOPs into guided, automated workflows, taking the feature from a blank canvas to a shipped product the team called "a key feature of SuperOps."
- **AI-Native Ticketing:** Designed a custom AI ticketing platform that processed over 1,000 customer inquiries daily, streamlining operations and enabling faster resolution, which contributed to a notable increase in customer retention.
- **Remote Collaboration:** Consistently delivered high-quality features in a distributed environment, ensuring 100% functional parity across diverse screen dimensions.

Member of Technical Staff (User Experience) at Zoho
Chennai, India | Oct 2018 – Feb 2023 | 4 years 5 months

- **Data Tooling:** DataPrep 🔗 Designed complex ETL (Extract, Transform, Load) tools and an intuitive SQL editor with context-aware auto-suggestions, directly enhancing user productivity in BI workflows.
- **Agile Execution:** Consistently delivered multiple high-impact features within tight customer-committed timelines.

Projects

AI-Powered Content Engine · Link

- Engineered a real-time AI interface focused on low-latency LLM interactions using Next.js and the Vercel AI SDK, leveraging streaming responses and custom hooks to manage complex conversational states.

Responsive Chat Interface · Link

- Developed a responsive chat interface using React and Bootstrap, featuring a mobile-friendly layout and interactive UI components.

Skills

- **Tools & Collaboration:** Figma, Claude Design, Claude Code, Framer, Adobe Illustrator, Webflow, Adobe XD
- **Programming Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks/Libraries:** React, Sass, React Flow, LLM API integration (OpenAI/Anthropic)

Education

Bachelor of Engineering in Computer Science and Engineering · MIT 🔗
Anna University – MIT Campus, Chennai | 2014 – 2018

Interests

- Playing football ⚽ and tennis 🎾 (state-level player), and exploring emerging AI technologies.
